Certificate must be signed and stamped by a Veterinary Surgeon

**Valid Certificates – Vaccination Procedure**  
 Each Horse must have a valid vaccination certificate, which undeniably relates to that horse, completed, signed and stamped on each line by a veterinary surgeon, who is not the owner of the animal. It must state that the horse has received two injections for primary vaccination against Equine Influenza given no less than 21 days and no more than 92 days apart. (Only these first two injections need to have been given before the horse may compete). In addition a first booster injection must be given no less than 150 days and no more than 215 days after the second injection of the primary vaccination. Subsequently, booster injections must be given at intervals of not more than 1 year apart, commencing after the first booster injection. None of these injections must have been given within the preceding 7 days, including the day of the competition or entry into the competition stables.  
**Annual vaccinations may be given on the same date each year, but this is not recommended.**

*ALL OUR EVENTS ARE RUN BY VOLUNTEERS AND THE COMMITTEE HOPE THAT ALL COMPETITORS WILL SHOW THEIR APPRECIATION AND TAKE ALL DECISIONS IN A SPORTING MANNER*
